

# GAS FUME FADER

The GAS FUME FADER meets specifications required for establishing a specimen's colour fastness when exposed to atmospheric contaminants

STANDARD

BS 1006 (G01, G02)

This tester can conform to but is not limited to the standards above. For more standards conformance please email [sales@roaches.co.uk](mailto:sales@roaches.co.uk) or call +44 (0)1924 420083

The GAS FUME FADER complies with the requirements of BS 1006 (G01, G02) and also fulfils the requirements of the standard for Colour Fastness to Atmospheric Contaminants and Colour Fastness to Nitrogen Oxides.

## Unit Features

- The apparatus is motorised enabling the specimen frame to be rotated.
- Bench standing constructed from high grade stainless steel.
- Glass Tube constructed from high grade material.
- Adjustable gas tap for easy regulation of the flame.

Roaches reserve the right to alter the specifications or modify the appearance of products without prior notice.
