

PACKAGING MACHINE SERIES

包装机系列

性能及特点 / Performance and Features

全自动包装机，使用不锈钢外观/整洁/清晰/高端，适合放在厂房、店里、户外等等。安装一个震动器在机械内部，可使机械在包装粉末的时候不会粘住。可与各种各样的分装机组合连接工作。速度3秒一包左右，视不同物品而定，高品质产品。另外本机为两台组合成全自动包装机，上面那台小台分装机也可以拿下来分装称重其他物品，下面那台也是可以单用的，这就是组合的最大优点，也可以当做全自动，也可以当做半自动的。

Use stainless steel appearance / neat / clear / high-end, suitable for the plant, shop, outdoor and so on. Install a vibrator in the machine will not stick when packing the powder. Can be connected with a variety of sub-assembly machine work. Speed of about 3 seconds a pack, depending on the different items, the other for the two sets into a combination of automatic packaging machine, the top of the Taiwan Taiwan sub-machine can be sub-loaded sub-loading weighing other items, the following can be used alone, this is the combination of The biggest advantage, but also as a fully automatic, but also as semi-automatic.
